

Hear She! Hear SHE!

Come gather round, to share and speak freely! We must be here for each other.

As Magdalen Berns stated, "I'd rather be rude than a liar." We need to speak truth.

This one is for the moms! Every child is at risk for not only falling for the TRANS Cult, but are being encouraged to do so. And it is a cult.

The TRANSgender medical industrial complex is playing the long game, and using all the tactics to do so.

I wish to give you hope, and alarm you. Give you knowledge, and resources.

Mom, You have more strength than you know, and my hope is that trans never haunts your home.

I will be speaking as if you are fresh, as I was, when this hit my home, so bear with me.

And I do bear good news, I promise!

The WANTED image you see is of 3 main mascot influencers used in schools to indoctrinate our children - and a vile doctor holding literal buckets of breast tissue as a Christmas GIFT! This is what our daughters are knowing. TRANS pushers are ready to destroy your children's lives and bodies, your family, and often your livelihood, jobs, and parental rights! The state is taking children and transing them. T is a verb. And don't think it's not about money. There is one child shown by our dear Exulansic and by the age of 21 had already charged 1 million dollars in medical bills! She had suffered sepsis, necrosis, and almost died 4 times, yet was still believing in the Transcult! One doctor on Tiktok called the removal of women's internal organs (because our insides necrotize due to testosterone)- "JACK-O-LANTERNING!" Think about that image. Yup- not exactly respectful of women and children. And doing it to minors! Our children become dependent patients for life. Not many sane people think a disability/ dependency on medical care equates to a life that is free. Isn't THIS why we keep away the dangers, and educate our children on drugs, safety and to make good choices? IT's always about their future. TRANS seems to stop the thought, as cults do. Read: Pronouns are Rohypnol essay. Trans IS NOT GRASSROOTS. KNOW YOUR COUNTRIES LAWS on Gender Identity, gender, and conversion therapy laws. Yet TRANS IS literally conversion! Canada has put compelled speech into LAW for the first time in the history of commonwealth law.

My name is Shannon, and I am a full blown MAMA TERF. In other words, a woman, a mother, living in reality and fighting for women's liberation. Yes. still. Since you are hearing me, and you have found WDI, please know you are in the right place. You have found women who will continue to weather the TRANS storm, to fight for you and your children in life, law, health and humanity. Many women are devoted, and do not even have children themselves. Find us on social media too. Let us hold you up, calm you down, and lend you an ear. Sharing and caring are universal bonds for women. You are not alone. Right here at WDI, every Saturday, my heart fills up. The women's circle IS the universal, historical strength of humanity, a main reason we were not made extinct..

So, mama, find one great friend to hold you up, be ready to stand firm, and know that you can do this!

I even hired a guard outside my home, I had to threaten neighbors, a lesbian couple, with legal action when they tried to indoctrinate my daughter. Others have moved their families, to save their girls.. We get ONE body, and moms, we only get one chance to raise them. This is your shining moment.

This is NOT OUR gender or GENDER NEUTRAL. Gender has turned against us. We must use the legal terms, sex.

We don't sew wings onto their spine when our children wish to fly! Flying, yet another biologically determined possibility.

Woman is the oldest fact of humanity, and if it can fall, so can every other fact.

If sex-based rights fall to "gender-identity" in the west, the world will gladly follow and throw away the rights, laws and protections of women and children.. We need every voice in this fight..

Trans Rights are Human Rights? NO, no, no..

T already have all the same HUMAN RIGHTS as others in the West AND huge political and cultural power and protection. Trans wants to dissolve others rights, which does not create true equality. Soon a TRANS parking spot may be closer than a handicapped space. Is driving, blind-phobic because blind people can't do it? We must not allow such manipulation to continue.

Male violence exists. Once that universal scourge is solved, THEN, maybe, men can come ask us for a favor, thank you very much. As Andrea Dworkin said, "men can't even give us a 24 hour respite from rape."

As Coach Linda Blade explains, "anyone who grew up on a farm knows that a castrated bull does not make a cow."

Mom, you may hear

"Oh mommy, silly, it's not about biological sex, or the act of sex, it's **just who I am. THIS IS MY IDENTITY.** The most dangerous words for anyone who has studied tyranny. It cuts to the core of human nature. Do not obey. I call this **Participatory Obedience** .. when people voluntarily line up for their own destruction. We must always think a little deeper.

Our "identity" is what we DO, not what we declare.

NO— SEX, both kinds, is EXACTLY what trans is about. Trans wants laws to fall, and unfortunately they are.

Let's get some business out of the way:

FIRST: In case any pro-trans people are here, we hope you do listen. We hope you use democratic and diplomatic ways to engage, as we should in our civilized society. But you MUST know the trans activists are physically attacking women, stopping women from speaking, even just to say - adult human female. This is what allows tyranny. You have a future. We are here for you when you are ready, and we are fighting for YOU! As Bertran Russell said, "The fundamental cause of the trouble is that in the modern world the stupid are cocksure while the intelligent are full of doubt." We always have more to learn.

NEXT: A message for the TRANS CULT. You cannot have our children. We will fight. I am more Mama honey badger than Mama bear on this issue. WOMAN is taken. Make your own word the condition you suffer.

NO prefixes. No non-sex. No 3rd gamete. No quarter. If medical consent at 12 for dismemberment is acceptable, then why not sexual consent? This is what they are after. This is not GAY PLUS. When we learn history, we see you. WE WILL NOT OBEY! You call our children eggs to be cracked! We will protect. No is a full sentence. Our lesbian daughters

do not need to change anything. Same for our autistic children. 40 % of teens are id'g as T or Q. 65% are homosexual. 40% are autistic. Eugenics is not new.

FACTS: We must stick with facts and reality.

Every cell is male or female. A third gamete does not exist. A person with functioning of both reproductive organs has not existed. Intersex is a red herring giving TRANS license for biological exploitation.

ONE BODY. 2 SEXES. 3 LGB. Puberty is not pathology. WE are the ones who stand with LGB- to grow up, stay intact, be healthy and love who they wish. Without harming or taking from anyone. The only way to protect in law, is with reality, which uses the term of sex.

CULT - see the BITE model- if you leave trans, will they accept you anyways? Cults are about controlling Behavior, Information, Thought, and Emotion. See the treatment of detransitioners after they leave, one is Waffling Willow who covers the cult. Cults do not allow outside information, they lovebomb the newbies, deadnaming makes your old life dead, and your new life with the cult. You are to rid of your old family for a new glitter family. Language changes to mark and separate the group from society. Trans adds the demand of a literal Pound of flesh.

Now for The good news!

My young ROGD/Trans non-binary genius teen DAUGHTER denounced the TRANS CULT!!

After 7 months of my deprogramming, she stated on her own that she is done with it. She has since made it safely to 18! The **IRONY**- for a mother to be grateful for puberty! IT is not lost on me. To feel stronger for keeping her HOME from college? Such cognitive dissonance! What mother could ever believe that to be right, outside of addiction or trauma? I had to hire a 24 hour guard outside my home. I am but one person. But, the teachings we instill are what we ourselves must uphold. I taught my children, it is better to be preventative than curative. We get one body, to last a long life if we are fortunate. If I hadn't stayed firm, I would have lost her. Her life, mind and body would be ruined today. I am grateful to you female fighters who inspired me, you gave us a future again.

THIS TRANS CULT is powerful, persuasive, insidious and protected. Our children need us mamas, even if they think they hate us for a little while. My daughter wouldn't even remember today what she said to me at that time, the brainwashing is so intense. Emilie on WDI explains it well.

BEFORE I PEAKED (a word we use when we become aware of the truth of trans):

The dangers i was watching for, as I did for my older children:

Porn, webcams, eating disorders, moods, late nights, hidden phones, cash, bad grades, cutting, drugs, smells, dilated pupils, bad friends, sneaking out, .. ALL CLEAR.

She was graduating, as a valedictorian, at 16! Healthy, happy and a bright future, having acceptance to colleges. What a happy day! What an accomplishment!

But then...

THE BINDER. I found the BINDER. A binder is a breast compression corset so you can seem flat chested, used as a stepping stone towards the surgeries, and non-binary have them too. I thought, What is this? Who is telling her her body is wrong?? How could I not

equate it to the concept of breast ironing? ANY strike against the female body is misogyny. Transing is a verb- How little I knew, and what horrors I was about to find. As I had taught them, ignorance is not an option, so I had to learn and fast. Also I raised them stating, "If I won't let someone else hurt you, I won't let you hurt you either."

As an autodidact, I began researching. and quickly learned **not** to trust the experts, doctors or therapists and **definitely not** any LGBT+ "center!" I bought the BOOKS: Abigail, Helen, Kathleen & Kara.....READ Huxley & Orwell, joined Youtube premium. I was not on social media. Damn was I mad! If I had done so, I may have known the truth earlier! Irony everywhere.

As a **US democratic liberal**, I was shocked.. as a MOM, I was **PISSED**.

My Peak TRANS moment:

Listening to youtube, I heard a clear, no-nonsense British mum say: "**Do you know how offensive it is, to say the definition of a woman makes MEN feel unsafe??**" You all know HER! It was Kellie-Jay Keen. **Yes. Yes!** WOMEN matter. Our daughters deserve better. I can do this.

Advice Informing her of testosterone dropping up to 15 IQ points was a big scare. She had worked so hard. We cannot waste rare talents in this world, and we do no good for others by bringing ourselves down, we must always see help as lifting others up. Use spyware, it is a necessity, you need to know. The **digital world** IS the next world, not mars. China owns tiktok- and is watching our children destroy themselves. Algorithms are studying your child's behavior, every blink, pause, facial movements give away their interest. Algorithms can see if children post pronouns, flags in games, chat rooms, etc. It also signals others who are looking for these symbols. Trans is as dangerous a trend as anorexia, which is still the highest rate of death, for now. Anorexia and Trans can both take hold within 4 months. So start sleuthing Mama. Like addiction, the earlier it is caught, the better. We watched "the wave" a documentary where a teacher did an experiment and turned his class into the third reich within weeks. We need to know social engineering tactics.

WATCH FOR SIGNS:

Flags, pins, pronouns, ANIME, trans friends, fluffing their shirt to hide breasts, slouching, signal clothing-non-binary all look the same), tape, binder,acne,facial hair. Insults towards women, sensitive to names, pronouns, words, cis/enby etc.. lowering voice, cutting hair,..love bombing and friends who are "saviors" who will be on the phone coaching them what to say against your parents, and what to say to get testosterone from providers.

And don't think it's not about money. Even from one child's foreskin, 4 football fields of skin can be created. This is a BIOTISSUE boon, and the market shows it, as SRS surgeries are shown to increase by billions at 12% rate/yr, and, I'm sorry to say, organ farms are in the works. See the11thhourblog, know transhumanism. Testosterone is now available as a pill and gel, no need for needles any longer. but pills and gels. They order it from China online. Rutgers University has a table for free testosterone at orientation! Universities offer the surgeries for free. Look at the colleges funding, and "inclusion" policies.

I view Pronouns as a MARKER. They designate you into a group. They allow for discrimination. Just as an armband, branding, or actual gender. Forced to ask, answer, announce yourself by pronouns, **instantly** sorts you into US or THEM. CIS is the new enemy (of course, they should have to ask us if we "identify" as CIS...alas) But that is TRANS point. T doesnt CARE about you. It is about themselves. I taught my daughter of the

Holodomor, to demonstrate the devastation we can do to ourselves by pitting people against each other as groups.

TRANS takes precedence over same-sex rights, in law now. A high school lesbian couple was asked by peers, "so which one of you will trans?"

WHY IS TRANS what we have in common with IRAN?? How is this okay??

Every Trans word/definition is backwards. As Nina says, T acted like they wanted a hand-up, but they took a leg over.. Trans IS conversion therapy!

I like rewards more than punishment, I am a softie. So my daughter was surprised by my firm stance, which gave it more weight for her consideration. She took me seriously.

For **leverage**, USE DRIVING - and the phones/devices, even money. Driving is a privilege, not a right. Society decided a child is responsible enough to use their own comprehension, to be responsible for a 3,000 weapon. If you don't stop for a stop sign, it's not about you. It's about others. We use turn signals, horn, lights to communicate with others. I can't trust you with other lives if you can't care for yourself. Paying her to read and watch lessons followed by 5 minutes of discussions, was money very well spent, and cheaper than therapy. You can't buy back body parts. Even if TRANS surgeons say you can. We were learning about adulting. Learned of thalidomide, opioids, labotomies...other medical atrocities.

True Suicide ideation and actual threat, is AFTER medication begins. Before that, it is manipulation. And one look at trans-tiktok, and see the money some of the kid pushers are making and you will want to throw up.

Come from your child's point of view, and know what matters to them, for example, If our trusted vet told us, "your beloved dog will be sooo happy if we remove her front legs, oh you can't imagine!" Would you believe it? Should we give it some thought? KNOW: The lab coat effect.

My newly educated heart was full of flusters, I would blurt out:
But everybody loves breasts! Or, I didn't even cut your brothers! We changed Hormones in meat so as not to hurt you! Or I didn't even drug u at birth..on and on.. What we do today IS FOR their FUTURE, not today. Kids can't usually think like that. Flossing, helmets, vegetables, education.. their future needs to be protected,
Parents know, life can change in an instant, and we need our children to think twice before making a decision.

It is the chronic pain, dismemberment and destruction that broke me. I have lived with chronic pain, I am past it now. It is on me that she didn't understand what that truly means. Again, this is what we want for our children. But they need to have the understanding so we studied disabilities, addictions and loss of bodily freedom.

GENDER DYSPHORIA -I see it as BIID. And surgery to change the body to cure the mind, for BIID is illegal, for good reason. In fact, a surgeon who did try it as a cure, found the patients who amputated their limb, just found the remaining limb became offensive! We must fix the mind. Who decided sex organs, colons, breasts etc are more disposable? Who is gaining from destroying YOUR body?

We need to choose, child and women OR man in a dress. Pick one. We cannot protect both.

In conclusion:

TRANS is not kind, nor LGB. Suicidal danger is AFTER medicalization. Teach them they get one body.

DO NOT SUPPORT, those going back to eugenic roots with PLANNED PARENTHOOD, and against women with ACLU who are lying outright. HRC straight up pedo and trans pushers.. Exec order 15, insurance companies are MANDATED to pay for “trans” dismemberments, girl guides have men in tents without telling parents, .. CHECK your charities money sheets!

Remember: When you read about a “she” it may be a “he.” See NOTOURCRIMES

Taught - under anti-bullying at school, not sex-ed. So it's not told to parents and is not in curriculum. It is taught at assemblies by outside groups. Which means, when the children get home, if you believe in reality, it makes mom the instant bullies! Absolute manipulation. Make a fuss. Be the voice our children deserve. HOLD THE LINE.

As Kellie-jay exclaims, “The house is on fire, and we all need a bucket.” As Rex Landy says, “every bucket of every kind is welcome.”

I now do activism with HearSHE! HearSHE! And right now, we have a **Letter campaign for Kara Dansky** and Exulansic to get on Bill Maher - by email only - hearshehearshe@gmail.com. Share widely! We will get the word out, they cannot cancel all of us.

And dear, weary moms, come to the chats, we are here waiting for you, with excitement, knowledge, warmth and sisterhood. We need each other more than we have in a long time.

It's time to gather and rally around again . Fists up! Women's circle with the children in the middle. Keep speaking..be brave.

Thank you for listening!

Signed off, Shannon, Mama Terf
