*„Men are Women“*

*„The Party told you to reject  
the evidence of your eyes and ears.“*

George Orwell, 1984

After November 1, 2024, sex will be  
an arbitrary category in German law:  
Men will be able to declare that they are women and  
women will be punished for calling a man a man.

Women stand for reality.  
Women's rights are based on reality.  
Women create the reality of every human being.  
We have to protect reality!

**We call on our sisters  
to organise solidarity activities  
in front of German embassies  
on November 1st, 2024.**

**We need your solidarity!**

Dear feminist sisters,

German politicians have passed the self-ID law in April this year and thus legally replaced the category sex by gender.

After November 1, any German adult can change their ID to the opposite sex and new name. People that continue calling a man who claims to have a "female sex identity" a man can be fined up to €10.000. Parents can choose the official sex for their child, after 5+ years the child's "consent" is required. Children aged 14+ years can call on the family court if their parents do not support their belief of "living in the wrong body".

More information on the German self-ID law is available at:  
<https://www.ronalyze.de/p/self-id-law-passed-in-germany>

We regard this as a massively misogynist and child-harming jurisdiction and we are organizing a demonstration in front of the German parliament on Nov 1 this year.

Our motto will be: „For science, democracy, women and children – away with the so-called self-determination law!“

Our politicians who literally say things like "No doctor can decide on the sex of a person from the outside", "A penis is not a male sexual organ per se", and "Transwomen are women" behave like the party in Orwell's book 1984, they distort reality.

They need to know that we stick to reality. We have good reasons to fear that Germany's jurisdiction will be used as a role model in other countries.

We are calling for your solidarity and ask you to organize something against self-ID in front of the German embassy in your country on Nov 1 at 12:05. (This is a play on a German expression that means: we are just too late).

You can use the Orwell analogy or let your imagination run wild. Please help us in making our feminist protest visible, worldwide.

We have signed the international declaration on women's sex-based rights: [www.womensdeclaration.com](http://www.womensdeclaration.com)

Please contact us if you would like to take part in the campaign!  
Greetings in solidarity,
