

Why we have like today's Afghanistan? Why today we see every day new restrictions on women?

Why we have like today's Afghanistan?

Why today we see every day new restrictions on women, even voice of women is banned or last restriction on medical students?

As I lived in Afghanistan All time.

The Answer is Because 80 percentage of Afghan leaders were fake.

They come from Outside Afghanistan by different group projects and control important parts of government. And they only Thought about their self how to get more money.

Even the women leaders were fake.

They just thought about themselves.

I saw in all past 20 years Afghanistan had Supports from All countries but Afghan government leaders and Women leaders were fake and lie, not real leader to think about Afghan people and Women. That is why very easily the fled and Taliban took control of Afghanistan.

I See in news fake leaders and fake women leaders just talking and writing online.

My question on behalf of Afghan Women and Afghan People is What you did you all fake leaders during past 20 years when you had all powerful government?

If we see restrictions on women most percentage is because of fake leader.
